Obstacles to Okanogan's growth and prosperity today:

- Highway 97 bypass
- Loss of Forest Service Office – 100 college level jobs
- Loss of DSHS to Omak

BUT... Despite the challenges of geography, loss of keystone institutions, our community has thrived due the passion for community involvement established by our founding fathers.

Solid architecture -

Generational Renewal – our youth return home like salmon returning to their watershed

Promoting our local **custom and culture**, Frank Matsura based on the metaphor of salmon or children returning to their watershed

Our young “salmon” return to their place of birth and continue to reinvigorate the community.

This is only a tiny list of names brainstormed in 10 minutes of our many successful Okanogan graduates who went off to explore the “world” but returned because of the heartland feeling of Okanogan
